Our Story

Centafrique Limited is a trusted Pan-African consultancy firm based in Nairobi and thriving by delivering world-class, sustainable and practical advisory solutions to all it serves.

We are sought after for our experience, capabilities, and ethos of partnership, impact, and delivering sustainable solutions. We support our clients prosper by identifying and providing solutions for challenges impeding their establishment, growth, sustainability and transformation.

Between our team members, we have accumulated over 20 years of experience doing what we know best.

We develop cutting edge business and organizational solutions to ensure business sustainability.

Anchored on professionalism, innovativeness and a thorough understanding of individual client and organizational needs, Centafrique works hand in hand with clients, both organizations and individuals, to transform ideas into implementable reality. Our focus sectors include; public sector, private sector, humanitarian and social sector, agriculture value chain enhancement,

and enterprise development.

Our experienced team puts emphasis on translating the otherwise complex process of business planning, fundraising, business strategy and research and translating them into accessible, professional and viable ideas, well packaged for implementation.

Our Mission

To create sustainable prosperity and value for our clients.

Our Vision

To be a regional consulting firm in enterprise support and business development.

Our Core Values

Dedication

We ensure our intended clients and partners are well served and that we make a lasting positive impact.

Integrity

We adhere to moral and ethical principles to ensure efficiency in service delivery.

Accountability

We take responsibility for our actions.

Value

We are committed to meeting our client needs and add value to their enterprises.

Our clients' transformation and success is our too!

We firmly believe that our clients' transformation and success is ours too. We ensure professionalism in all our assignment and therefore we are consistent in quality standards and we always endeavor, to deliver value by guiding each client uniquely based on their specific needs.

Our Sustainability Commitment. Throughout our existence we've maintained an unwavering pledge to unlock the potential of those who advance the world. In all our undertakings, we prioritize the planet and humanity because we understand that what is good for the planet is good for business.

Our Value Proposition

i

Subject matter professionals with a deep understanding of our core focus areas;

ii

Resourceful insight gained from previous consulting advisories to public entities, development partners, private sector, on various issues;

iii

Risk management and quality control capabilities which allows offering of tailored, yet cost-efficient and risk-managed solutions;

iv

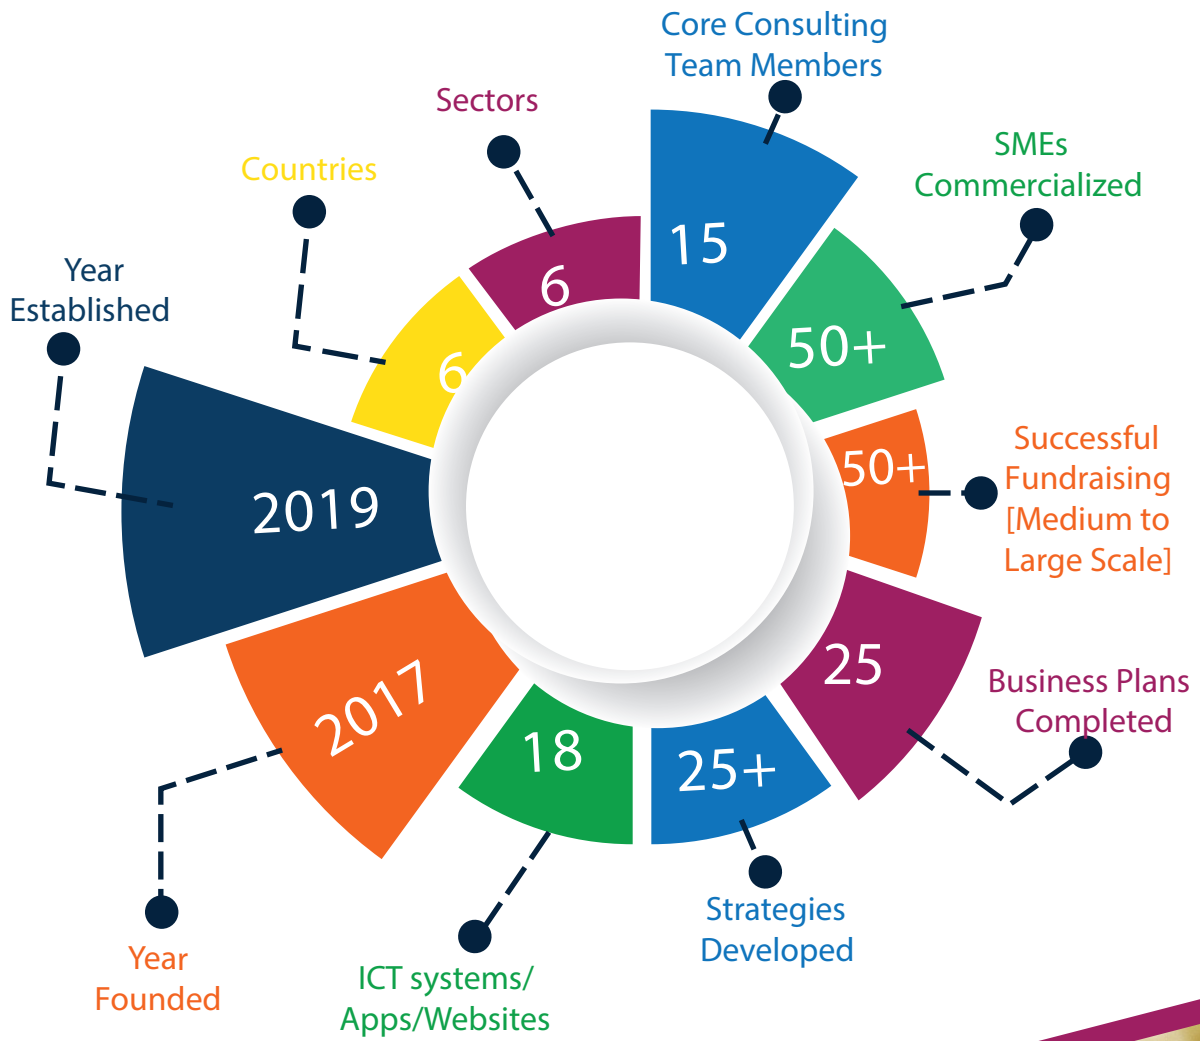

Extensive experience in providing result-oriented advisory based on local landscape and context;

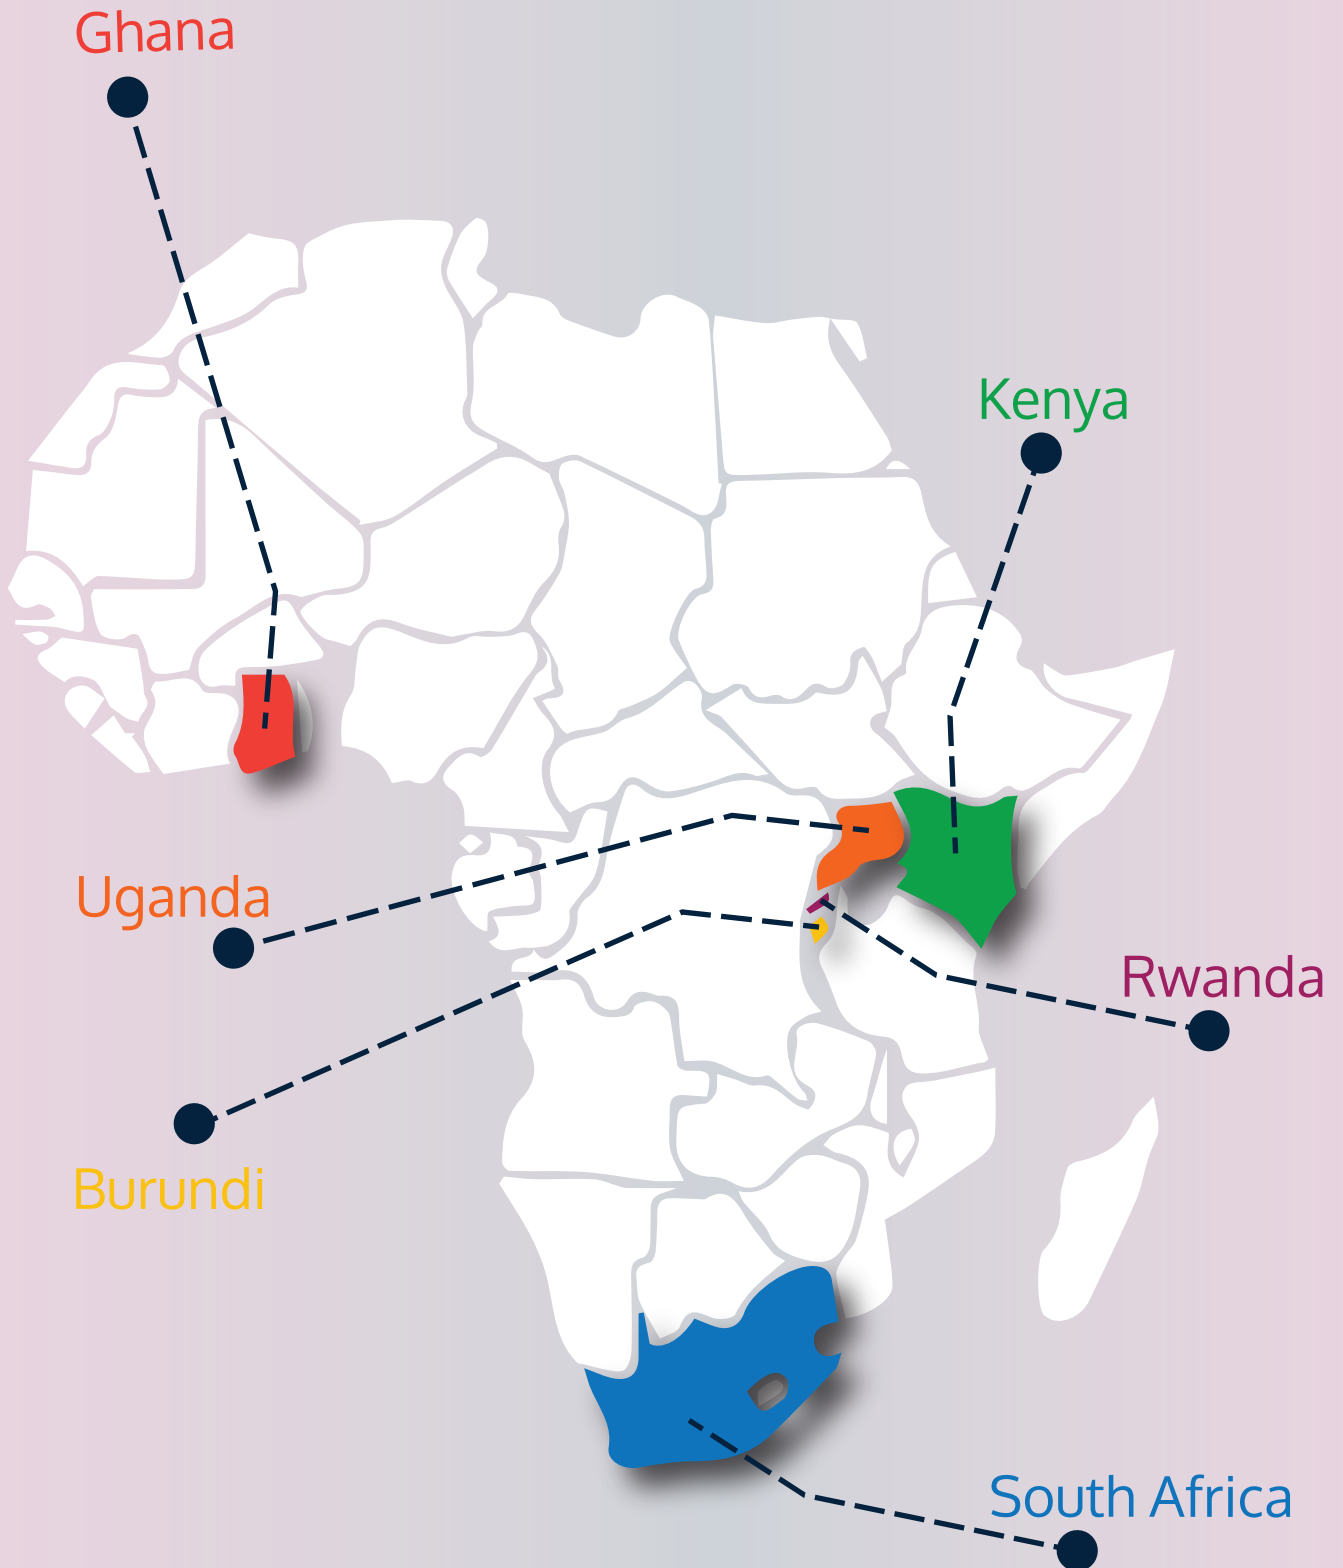

v

Deep experience in designing, implementing and evaluating sustainable solution and interventions in our core focus areas;

vi

Existing and rich networks with like-minded organizations across the region;
